Protect yourself — and your city — from claims during your event.

GatherGuard protects you from liability for injuries and damage that may occur at your event or activity.

Are you planning to use or rent a city facility? Minnesota cities often allow individuals and groups to use municipal-owned facilities for special events like weddings, festivals, and reunions. Sometimes, though, the city and event organizer may be sued if someone is injured at the event. These claims can be both time-consuming and costly.

Enter GatherGuard, which helps you and your city avoid these situations. **Here are three main reasons to use this program:**

- **GatherGuard helps individuals and groups protect themselves and their guests at events held at city-owned facilities.** Without GatherGuard, you may be personally responsible for paying claims for bodily injury or property damage. Your homeowner's insurance or another private insurance carrier might cover some situations, but it may be limited.
- **This insurance program covers a wide variety of events,** such as receptions, festivals, job fairs, weddings, concerts, meetings, reunions, arts & crafts fairs, and more. GatherGuard provides up to \$5 million in general liability limits, and liquor liability is available upon request.
- **Protecting yourself and your city is made easy with GatherGuard.** After entering your event information into the secure web site, an instant quote is generated. Your insurance can be purchased online with a credit card, and your city is automatically named as an additional insured.
